Ken Hom with Wynnne Chan
 Introducing a brand new concept to wok your way to good health.

“Stir-fry cooking has always been one of the healthiest ways to cook food, but this time, I have taken it one step further. I have teamed up with Chinese nutritionist **Dr. Wynnne Chan** to create the NutriWok healthy eating kit, which has been designed to help you create great tasting healthy Chinese food.”

RANGE

Ken Hom

KEN HOM ethnic cookware

GB Ken Hom is the world's foremost authority on Chinese and Asian cuisine. He has written numerous best selling cookbooks and has showcased his culinary skills on television around the world.

The Ken Hom ethnic cookware range has been designed to combine both practicality and ease of use with the centuries old tradition that lies at the heart of Chinese cooking.

All non-stick woks in the range are coated with Topbon, a dual non-stick coating designed especially to cope with the high temperatures experienced during stir-fry cooking. To ensure longevity and to maintain the integrity of the non-stick coating it is not recommended that these products are put in a dishwasher or used on an induction hob.

All packs include multi lingual instructions for care and use (English, French, German, Italian, Dutch, Finnish, Danish and Russian). Gift sets also include Ken Hom recipe ideas.

FR Ken Hom est le leader mondial en cuisine chinoise et asiatique. Il est l'auteur d'un grand nombre de livres de cuisine à succès et a démontré ses talents culinaires sur de nombreuses chaînes télévisées dans le monde.

La collection d'ustensiles de cuisine orientale Ken Hom a été conçue pour allier praticité et facilité d'utilisation avec les plus anciennes traditions reposant au cœur de la cuisine chinoise.

Tous les woks anti-adhérents de la collection sont recouverts de TopBon, un revêtement anti-adhérent à deux couches conçu spécialement pour la cuisson à très fortes températures. Pour prolonger la durée de vie du wok et conserver la qualité de son revêtement anti adhérent, il est recommandé de ne pas le laver au lave vaisselle ou de l'utiliser sur une plaque à induction.

Chaque pack contient des instructions d'utilisation et d'entretien dans les langues suivantes : anglais, français, allemand, italien, hollandais, finlandais, danois et russe. Les ensembles en boîte contiennent également des idées recettes de Ken Hom.

DE Ken Hom ist die weltweit führende Autorität auf dem Gebiet der chinesischen und asiatischen Küche. Er ist der Verfasser zahlreicher Kochbuch-Bestseller und präsentiert seine Kochkünste in TV-Programmen rund um die Welt.

Das Design der Ken Hom „ethnischen“ Kochgeschirr-Palette vereint praktische Anwendbarkeit und einfachen Gebrauch mit der jahrhundertalten Tradition der chinesischen Küche.

Alle „Non-Stick“-Woks aus dieser Produktpalette werden mit „Topbon“ beschichtet, einer zweilagigen Antihafbeschichtung welche insbesondere für hohe Temperaturen entwickelt wurde. Diese Beschichtung ermöglicht das „kurze Anbraten unter Rühren“ welches Wok-spezifisch ist. Um die Langlebigkeit des Wok und die Haltbarkeit der Antihafbeschichtung zu gewährleisten, empfehlen wir diese Produkte nicht in der Spülmaschine zu reinigen und nicht auf Induktionskochplatten einzusetzen.

Alle Produkte haben mehrsprachige Gebrauchs- und Pflegeanweisungen (englisch, französisch, deutsch, italienisch, holländisch, finnisch, dänisch und russisch). Die Geschenkpackungen beinhalten auch Rezeptideen von Ken Hom.
